COURSE OVERVIEW

This qualification is suitable for people working in a Work Health and Safety (WHS) role who provide leadership and guidance to others and have some limited responsibility for the output of others. The qualification reflects the role of workers who apply a broad knowledge base and well developed skills in a wide variety of contexts and may include coordinators, advisors and facilitators.

The course covers important topic areas including compliance and legislation, contributing to WHS consultation, hazard identification, risk control, risk assessment, incident response, WHS management systems and continuous improvement concepts.

The course is ideal if you wish to obtain the skills for a designated WHS position or you are already working in a safety role and would like to build on your skills and formalise them as a nationally recognised qualification.

DURATION & STRUCTURE

The course structure allows you up to 10 months to complete the program during which time you will study using a combination of face to face in a classroom, combined with homework (distance) away from class.

You will complete 600 hours of study, including 5 days a week for 4 weeks in the classroom environment. Away from class you will work in your own time conducting research and completing activities and assessment.

All learning and assessment materials required to work away from class are provided online through our student portal linked to our website. In addition you will receive materials in hard copy to work on in the classroom.

Assessments are a combination of written work, oral questioning, group based observational activities and role play.

POTENTIAL CAREERS

Potential job roles on completion of this program include:

- WHS Officer
- Site Safety Supervisor
- Team Leader
